His latest book is *"The Palestine Laboratory: How Israel Exports The Technology Of Occupation Around The World"*, released in 2023. Published by [Verso](#) in the US + UK and [Scribe](#) in Australia + New Zealand, the book is a global investigation into Israel's endless occupation which gives the Jewish state invaluable experience in controlling an 'enemy' population, the Palestinians. It's here that they have perfected the architecture of control, using the occupied Palestinian territories as a testing ground for weaponry and surveillance technology that they then export around the world. The book is endorsed by Noam Chomsky, Ilan Pappé, Avi Shlaim, Gideon Levy, Eyal Weizman and others.

His other books include [My Israel Question](#), [The Blogging Revolution](#), [Disaster Capitalism: Making A Killing Out Of Catastrophe](#) and [Pills, Powder and Smoke: Inside the Bloody War on Drugs](#).

His films include [Disaster Capitalism](#) and the Al Jazeera English films [West Africa's Opioid Crisis](#) and [Under the Cover of Covid](#).

A recent opinion piece written by Antony was published in the Sydney Morning Herald here <https://www.smh.com.au/national/the-may-13-edition-20230405-p5cygt.html>

## Women's Football World Cup has two PUMA-sponsored teams

The Women's Football World Cup – from July 20 to August 20 – is being hosted by Australia and Aotearoa New Zealand.

Unfortunately, two of the women's teams competing – Switzerland and Morocco – are sponsored by PUMA and because it is being held in Australian and New Zealand, these two host teams are also enjoying huge sponsorship from PUMA.

PACBI (Palestine Academic and Cultural Boycott of Israel) spells out the issues here:

*PUMA continues to lie, saying it has nothing to do with Israeli apartheid.*

*But PUMA continues to partner with the Israel Football Association, which governs and advocates for maintaining teams in illegal Israeli settlements on stolen Palestinian land. Israeli settlements are illegal land grabs forcing Palestinians from their homes.*

*BDS campaigns have forced major corporations, like G4S, that are complicit in Israeli apartheid and a litany of human rights abuses around the world to end ties with Israeli apartheid.*

*What's stopping self-proclaimed "progressive" PUMA from following suit?*

*The boycott campaign is growing. Last month there were protests inside, outside and online during PUMA's shareholders meeting. PUMA's CEO was so rattled he said "BDS" by mistake as he was talking about the Better Cotton Initiative (BCI) in front of 200 shareholders at PUMA's 75th anniversary AGM!*

*But we need to grow the campaign more.*

*Just as Banksy has done, let's use the power of cats on social media for Palestinian rights!*

[More information about the PUMA campaign here](#)

We are writing to all four teams, Switzerland, Morocco, Australia and New Zealand asking them to reject sponsorship from these collaborators in Palestinian oppression – PUMA.

## Palestine MPs file formal complaint to ICC to end unlawful blockade of Gaza

### Press Release

26 June 2023 - Gaza

#### Palestine MPs File Formal Complaint to ICC to End Unlawful Israeli Blockade Upon Gaza

Members of the Palestinian Legislative Council (MPs) in Gaza have assigned French Advocate, Maitre Gilles Devers, to file and pursue a legal case at the International Criminal Court (ICC) against the unlawful blockade imposed on Gaza for over than 17 years by the Israeli Occupation.

In this regard, Palestinian parliamentarians emphasize the following:

- This step aims to file a complaint to the ICC in [The Hague] to put an end to the prolonged blockade upon 2.2 million people suffering extreme living conditions and to hold Israel legally accountable for such illegal and unjustified measures that collectively punish people of Gaza.
- The blockade on Gaza should be fully lifted in line with Security Council Resolution 1860 and provided appropriate compensation to the Palestinian victims, estimated by specialists at least 25 billion dollars, based on the United Nations trade and Development Report, which indicated that the direct economic losses as a result of the blockade amounted to 16.7 billion dollars from 2007 to 2008.
- For years, Israeli occupation continues to implement apartheid unlawful policies and crimes against Palestinians with impunity, according to rights organizations including Amnesty International and Human Rights Watch. These policies left most people unable to have access to food, water, essential services such as healthcare and education for more than decade.
- The Israeli aggressions against Gaza Strip resulted in the killing of thousands of innocent civilians, the destruction of tens of thousands of houses, residential towers, public facilities, infrastructure, factories, commercial establishments, and agricultural lands.
- Demanding the International Criminal Court to take practical steps to condemn Israeli leaders for the blockade crime upon Gaza that constitutes war crimes and crimes against humanity.
- Calling for neutralized policy in dealing with our just cause and call for the enforcement of principles, law and regulations of the Court.
- The International Criminal Court bears the responsibility of ensuring justice for the Palestinian people which can be achieved by condemning the Israeli Occupation leaders for their war crimes and immediate lift of the blockade on Gaza which is against the fundamental principles of the Rome Statute and all international and humanitarian agreements and laws.
- The Palestinian Legislative Council is ready to fully cooperate with any committee established by the ICC in order to ensure justice and to end the blockade on Gaza.

## PSNA responds to Pastor Nigel Woodley

PSNA Chair John Minto responded to another full-page advertisement in Wellington's The Post newspaper last week from Pastor Nigel Woodley of Hastings. Woodley looked like he had swallowed whole an Israeli propaganda manual.

**Letters**  
We welcome letters to the editor, which should be sent to letters@thepost.co.nz or PO Box 1297, Wellington 6040. They should include the writer's full name, home address and contact phone number; should not exceed 200 words, and be exclusive. In keeping with Stuff's editorial commitments, we will reject or edit letters that are discriminatory or express prejudice on the basis of race, ethnicity, country of origin, gender, sexuality, religion or disability. Letters may be edited for clarity.

**Media Council**  
The Post is subject to the NZ Media Council. Complaints must be directed to editor@thepost.co.nz. If the complainant is unsatisfied with the response, the complaint may be referred to the Media Council, PO Box 10879, Wellington, 6143 or info@mediacouncil.org.nz. Further details at presscouncil.org.nz

to my local Post Shop in Paraparaumu. It was addressed correctly as per usual. The recipient in Waikanae received it exactly two weeks to the day later. I could have walked there faster.

Then, Courier Post dropped a parcel in my letterbox that wasn't for me. Fair enough, it had my postcode, but the town name was different. I took it to my local postal agency, and the person behind the counter checked online. Sure enough, there was the same street address in a different town.

We decided (I thought) to change the postcode and send it on its way, only for it to turn up in my letterbox three days later. (Admittedly, that's better than two weeks, but still ...). Fortunately, the return address was on the back so I drove up to Otaihangā and handed it over. Took all of 10 minutes.

**Israel's future**  
Re Pastor Woodley's full-page advertisement attacking Palestinians as "not ready for statehood" (June 24), of course Palestinians will not recognise Israel as a Jewish state because it isn't. Israel is a multi-ethnic, multi-religious, multicultural state. Twenty per cent of Israeli citizens are Palestinian Muslims, Christians and atheists but are subject to a whole raft of laws which discriminate against them because they are not Jews.

These policies have been called out by Palestinians and all credible international human rights organisations, like Amnesty International and Human Rights Watch, for several years.

Meanwhile in the occupied West Bank of Palestine Israel is continuing to build hundreds of Jewish-only settlements criss-crossed with roads which Palestinians are specifically banned from using.

A land area resembling Swiss cheese can never be a viable, independent Palestinian state. The United Nations Security Council, in a motion (UNSC 2334) sponsored by New Zealand under the John Key National government, says this settlement building constitutes a "flagrant violation" of international law and has "no legal validity".

Despite this, Israel continues to take more Palestinian land to build on because countries like New Zealand fail to put accountabilities in place as we have for other countries, such as Russia for its illegal invasion and occupation of Ukraine.

Israel's illegal settlement building means a "two-state" solution is now impossible. So a single democratic state, where all people have equal rights irrespective of ethnicity or religion, under a democratic constitution is the best way forward, as it was for South Africa.

**John Minto, national chair, Palestine Solidarity Network Aotearoa [abridged]**

**It is people**  
The tertiary "business model" reinforces the sanctity of the market which has led to, among other things, significant marketing spend for "bums on seats" and branding.

If we are willing to spend \$8 billion to \$28b on Lake Onslow pump storage as a tangible investment, how can we all change the narrative to see education as

## Background on Antony Loewenstein's new book

In the meantime here are three internationally-renowned endorsements for the book.

*'This is a must-read on a hidden and shocking aspect of the Israeli colonisation of the Palestinians. This book shows clearly that this kind of export is now Israel's most significant contribution to the global violation of human rights.'*

***Ilan Pappé, author of The Ethnic Cleansing of Palestine and Ten Myths About Israel***

*'A triumph of investigative journalism. It exposes the ruthlessness with which Israel exploits the experience gained from the illegal occupation to export all kinds of military hardware as well as the technology of surveillance, espionage, cyber warfare, phone-hacking, and house demolition. It also shines a torch on the dark side of Israel's support for despots around the world. Altogether, a profoundly depressing audit on a country that used to boast of being "a light unto the nations".'*

***Avi Shlaim, Emeritus Professor of International Relations at the University of Oxford and author of The Iron Wall: Israel and the Arab world***

*'A sad and sordid record of how "the light unto the nations" became the purveyor of the means of violence and brutal repression from Guatemala to Myanmar and wherever else the opportunity arose.'*

***Noam Chomsky***

## Are you able to donate a cup of coffee a month to the campaign?

We will need some serious money to make our campaign as effective as possible. For example, we will need somewhere in the vicinity of \$25,000 to bring speakers to New Zealand over the next year and organise large public meetings to help spread the message.

You can help. Are you able to donate a cup of coffee a month to the campaign? In other words, **can you afford to make an automatic payment of \$5 per month to support the Palestinian struggle?** (If you can afford more that would be great!)

## In Occupied Palestine daily newsletter – an invitation to subscribe from Leslie Bravery

Because of mainstream news media complicity, daily headlines and commentary only occasionally ever mention the relentless Israeli violence in Palestine, not even the frequent air strikes!

However, daily news and statistics regarding the violence Palestinians are forced to live under are regularly reported on in the “In Occupied Palestine daily newsletter”, sourced and compiled for easy reading and correlation chiefly from the Palestinian Monitoring Group's daily situation reports.

The “In Occupied Palestine” daily newsletter continues to be circulated, by email, worldwide to subscribers only, as it has been over the last two decades.
